

A FAMILY SPACE ADVENTURE

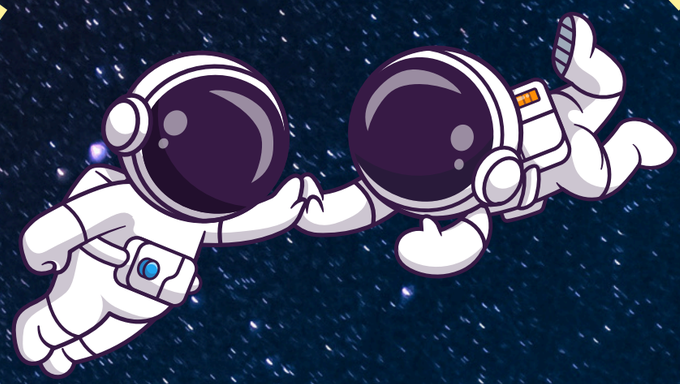

THE ADVENTURE ROUTE

The checkpoints of the Space Adventure are located in Helsinki Cathedral and the Cathedral Crypt. The adventure concludes with a walk around the Cathedral outdoors :)

Please return the Space Adventure to the basket next to the church nave exit

♥

Thank you!

1. Your spacecraft has landed at Helsinki Cathedral. As you enter, you see the giant Sun, Helios. What is the Sun?

a) A planet
b) A star
c) An asteroid

2. The Sun is enormous! Can you guess how many Earths could approximately fit inside the Sun?

a) 1000
b) 10
c) 1 000 000

Answers: 1. b), 2. c)

3. The Sun may be beautiful, but why is it a good thing that Earth is not too close to the Sun?
a) Because Earth and the Sun are not playmates
b) Because otherwise Earth would become far too hot to live on
c) Because the other planets would start missing the Sun if it were farther away from them

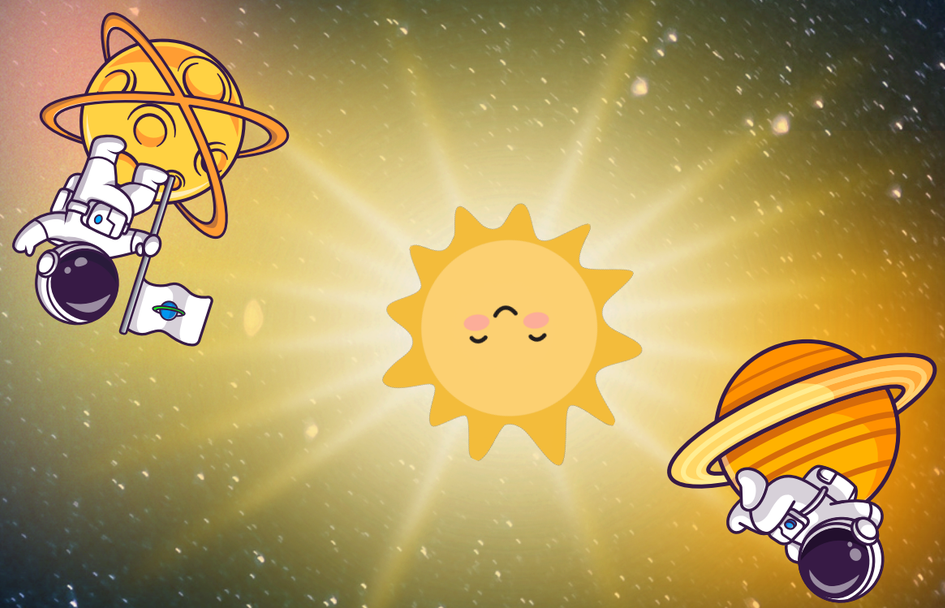

4. Next, your spacecraft will set off to explore the fun treasures hidden in the church's children's corner. The children's corner is located in the window alcove on the left side of the church

Once you've let your creativity run wild, your adventure continues with something dazzling and shiny! What could you find inside the church?

Answers: 3. b),

Continuing: Crypt: the wall of the brown coat rack (on the women's restroom side) and the middle section of the crypt (left side when facing the doors) 6. There are 12 small human figures on the roof of the Cathedral.

Answers: 5. Church hall: the radiator near the children's corner, the book stand next to the elevators, and the wall by the pews beside the pulpit (near the metal plaque).

Note: We recommend finishing the adventure at the Cathedral's main entrance doors :)

6. Once your spacecraft has flown outside, you notice that the creatures on the roof look like tiny people. As your final mission, count how many little human figures you can find on the roof of Helsinki Cathedral!

Once you have found all the stars, your spacecraft can fly back outside. A message has just come through on your radio: some mysterious creatures have been spotted on the cathedral roof! You can leave the cathedral through either the Crypt exit or the church nave exit.

5. You notice sparkling stars inside Helsinki Cathedral! Three stars are hidden in the church nave, and two more are hidden in the Cathedral Crypt. Can you find all 5 stars?

THANK YOU FOR JOINING THE SPACE ADVENTURE!

The Space Adventure at Helsinki Cathedral ends here. If you'd like, you can continue your journey by exploring the exciting discoveries waiting in Tove Jansson Park. Have fun playing and exploring!
