

A FAMILY SPACE ADVENTURE

- Longer Adventure

THE ADVENTURE ROUTE

Checkpoints of the Space Adventure:

- Helsinki Cathedral
- Kluuvikatu
- Esplanade Park
- Old church park
- The Old Church

Each question has one right answer. *:)*

Now your space ship will continue to your home planet and on to future adventures. Have fun exploring!

1. Your spacecraft has landed at Helsinki Cathedral. As you enter, you see the giant Sun, Helios. What is the Sun?

a) A planet
b) A star
c) An asteroid

2. The Sun is enormous! Can you guess how many Earths could approximately fit inside the Sun?

a) 1000
b) 10
c) 1 000 000

Answers: 1. b), 2. c)

3. The Sun may be beautiful, but why is it a good thing that Earth is not too close to the Sun?

a) Because Earth and the Sun are not playmates
b) Because otherwise Earth would become far too hot to live on
c) Because the other planets would start missing the Sun if it were farther away from them

4. You notice sparkling stars inside Helsinki Cathedral! Three stars are hidden in the church nave, and two more are hidden in the Cathedral Crypt. Can you find all 5 stars?

Psst! A message has just come through your ship's radio: if you'd like, you can check out the colouring pages in the children's corner of the church hall!

Answers: 3. b), 4. Church hall: the radiator near the children's corner, the book stand next to the elevators, and the wall by the pews beside the pulpit (near the metal plaque).

Once you have found all the stars, your spacecraft can fly back outside. A message has just come through on your radio: some mysterious creatures have been spotted on the cathedral roof! You can leave the cathedral through either the Crypt exit or the church nave exit.

5. Once your spacecraft has flown outside, you notice that the creatures on the roof look like tiny people. Count how many little human figures you can find on the roof of Helsinki Cathedral!

Your spaceship's next stop is on Kluuvikatu. What mysterious discoveries might be waiting for you there?

6. Once your spaceship has arrived at Kluuvikatu, find out which mysterious magical creature symbolizes the city block that Kluuvikatu belongs to. After that, your journey continues towards the Esplanade Park!

7. There are many statues in the Esplanade Park. One of them was erected in honor of the children's author Topelius. What are the maidens in the statue holding in their hands? Once you have found out, your spaceship will continue on to the Old Church Park!

8. Upon arriving at the Old Church Park, you notice a light blue historic building, the Old Church. This year, the church turns 200 years old. Although the church is old, space itself is much older. Do you know how old the universe is?

a) 20 000 years old
b) 16 million years old
c) almost 14 billion years old

5. There are 12 small human figures on the roof of the Cathedral.

6. A unicorn 7. The maidens in the statue are carrying a flame and a crowned bird. 8. c)

10. As your final task, find the tiny Earth hidden in one of the church's windows. Can you guess why Earth has been placed at the Old Church?

a) The Old Church's colour scheme was inspired by Earth's blue colour
b) In the scale model, Earth's distance from the Sun corresponds to the distance between the Old Church and Helsinki Cathedral
c) The tiny Earth feels at home in the Old Church

11. Finally, your spaceship discoveres a children's playground in the park, where your adventure comes to an end. Have fun playing!

Bonus 12. If the Old Church is open, look for the golden sun inside the church. (Hint: Take a close look around the altar area!)

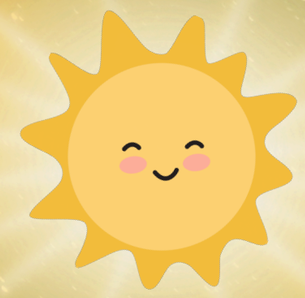

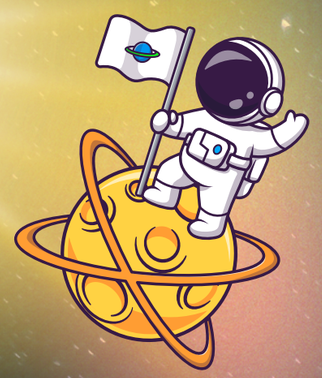

THANK YOU FOR JOINING OUR SPACE ADVENTURE!

Please return the space adventure booklet to the box next to the exit. Thank you!

Answers: 10. The Earth can be found in the left-hand window facing the Church Park. 12. The Sun in the Old Church can be found on the canopy above the pulpit.
